Best in Class Feature

- **Innovative Features**

✓ Vend sensor in the delivery box guarantees product delivery
✓ Zinc alloy keyboard
✓ Coin insert slot (easy to use)
✓ Secure door with wraparound anti-vandal enclosures
✓ Beautiful glass door
✓ Anti-theft device installed in the delivery box
✓ Glass heater to avoid condensation
✓ Backlit stainless steel keypad
✓ Can be hooked up to a locker

- **Energy Efficiency**

✓ Fully insulated foaming cabinet
✓ Double glazed viewing window with argon gas interspaces
✓ Led lighting to enhance product presentation&reduce
✓ energy costs

- **Cooling**

✓ Refrigerator with r-134a, complies with international standards
✓ Excellent cooling unit with Embraco compressor
✓ Dual temperature zones for drink and snack
✓ Preserving temperature: between 4°C and 10°C in the lower 3 trays; between 14°C and 25°C in the upper 3 trays

- **Simple yet full-featured interfaces**

✓ Programmable LCD display
✓ Standard peripheral opening for additional
✓ payment or POS systems
✓ MDB support for all industry standard devices
✓ including cash ,coin,debit and credit systems
✓ DEX data output support

- **Shelving**

✓ Adjustable shelf height every 15mm
✓ Snack shelves tilt down 25° for easy loading
✓ Dual or single spirals for different-sized products
✓ 360° helix adjustability in 20° increments provides flexibility to vend virtually anything

- **Additional Options**

✓ Optional 7"LCD screen
✓ High capacity can tray holds up to 54 12oz (330ml) cans
✓ Interior manual case
✓ Optional slave machine. Easy to be installed with master
✓ machine

THE VEND SHOP SNACK VENDING MACHINES

Festival

Highlights

- Cooler unit with R290 technology with extraction slides for easy access and maintenance.
- 8 or 10 drums with up to 36 compartments per drum (280 mm depth).
- Up to 40 different prices throughout the machine.
- Flexible snack offering - small snacks, cans and up to a 230 mm plated meal.
- Reduce downtime with independent drum operation - if one drum is damaged, out of order or being cleaned, the machine still operates.
- Save time on site - no tools required to adjust compartment sizes.

Electronics and Temperature Management

- Data transmission and retrieval according to EVA DTS standard.
- Advanced features for controlling temperature.
- Intelligent loading option - saving energy and preventing temperature fluctuations.

Snack and Drink Vending Machine

Taking Vending to the Next Level

NECTA IS A BRAND OF EVOCA GROUP

1 Features

- **Capacity:** 8 single spirals across & 7 trays
- **Combo configuration:** snacks and drinks
- **Only Drinks configuration:** available
- **Number of selections:** up to 56 selections
- **Design:** simple and elegant NECTA design
- **Layout:** flexible internal layout to meet different location requirements
- **Products display:** full glass-front and large LED illuminated window to make products more attractive
- **Softvend:** equipped with an elevator to dispense heavy or fragile products, and gives possibility to have all drinks configuration
- **Interface:** modern and user-friendly 7" touch screen
- **Shopping basket mode:** purchase of multiple products in one transaction
- **Trays with electronic labels:** remote management of price changes and promotions
- **Easy installation:** fit through standard 800 mm wide doors
- **Easy to fill:** tilting trays and wide door opening
- **Easy servicing on-site:** ideal modular “slide-in/slide-out” cooling unit and separate compartment for payment systems and electronics
- **Guaranteed product dispensing:** infra-red photocell detection to ensure correct product dispensing and avoid unhappy customer
- **Payment systems compatibility:** works with all major payment and telemetry systems
- **Energy efficient:** high efficiency cooling unit and excellent insulation of the cell

- **Intuitive and interactive 7" Touch screen interface**
- **Elevator for smooth delivery of products**
- **Trays with electronic price labels (ETL)**
- **Nutritional information of the selected product**

HAHA AI Vending Pro

U S 542CT

The AI Vending Pro is a professional-grade smart vending machine built for advanced operators who want high reliability, intelligent product recognition and seamless user experience. Powered by AI vision technology with 99% recognition accuracy, it delivers fast, secure unattended retail with remote management and flexible payment options.

Highlights

- Suitable for a wide range products: beverages, snacks, and all categories
- AI vision technology: 99% recognition accuracy
- Customisable shelves
- Cashless and mobile payments
- Remote monitoring and control
- Automatic restock alerts
- Anti-fog heating door
- Durable door frame material
- 24/7 operation in any location

Weight	**122.5 kg**
Power Consumption	**2.65 kWh/24h**
Product Capacity (L)	**558**
Temperature Range	**0° - 10°C**

HAHA AI Vending Ultra

U S 1200CT

The AI Vending Ultra is a high-capacity double-door smart fridge designed for large-volume locations and professional vending operators. It combines powerful AI product recognition with advanced remote management and flexible payment options, making it ideal for high-traffic sites that demand scale and performance.

Highlights

- Large capacity with double doors
- Can hold up to 756 bottled beverages
- Modular shelving system
- Anti-fog heated glass doors
- Remote temperature control via app
- Fast new product onboarding
- Multiple payment options
- 24/7 operation in any location

HAHA AI Vending Mini

U S 360CT

The AI Vending Mini is a compact smart fridge designed for smaller spaces that still need premium vending capability. It delivers the same AI-driven product recognition and remote management as larger models, making it a cost-efficient entry point for operators expanding into offices, gyms, and small retail environments.

Highlights

- Space-saving footprint
- Can hold up to 252 bottled beverages
- Energy-efficient operation
- Ideal for tight locations
- Durable aluminium alloy door frame
- AI product recognition
- Remote app control
- Flexible merchandising and shelving system
- 24/7 operation in any location

When Technology Meets Design

Attention to detail, exquisite design, perfect lighting and unrivaled performance make Koro Prime the focus for the ideal coffee break. Each is designed with soft, modern lines and is manufactured using a perfect balance of materials. Elegant 'mood lighting' illuminates both the front and sides and there's a large display for managing both images and text. The backlit, touch sensitive selection panel completes the look of this perfect modern coffee machine: you can see at a glance that Koro Prime is an elegant machine that will enhance any environment. Thanks to its characteristics, Koro Prime is ideal for locations such as offices, meeting rooms, shops, professional studios, small cafés and restaurants, and can be managed in a variety ways.

Highlights

Superior technology to satisfyevery need
If it's style and sophistication you're looking for, Koro Prime has the answer. It comes from the technology and experience of Necta, and as a result is the ideal solution for hot drinks services of a superior quality, with a menu to satisfy every taste.

Espresso
Thanks to the patented coffee brewer, the volumetric doser and the perfect extraction, which is required to make the best Italian espresso, Koro Prime offers excellent coffee and a variety of other hot beverages, including frothy cappuccino and creamy hot chocolate.

Cappuccinatore
The new high-performance milk management system ensures the perfect dose every time, creating high-quality drinks that combine fresh milk with authentic Italian espresso.

Simple and stylish
Style and simplicity are synonymous with Koro Prime and its ease of use is down to the simple display and conveniently situated touch sensitive selection panel, which helps the user choose their preferred beverage. It also offers a wide drinks menu and can offer up to eight different drinks, and through their versatility they are at home in any situation. Koro Prime is also small in size and light, making it easy to position into any location and move around.

Vitfrigo for Saeco Magic and LB1200

Vitfrigo for Saeco Magic and LB1200

✓ **ELEGANT DARK**

The shiny black panel gives particular elegance and value to the refrigerator, managing to easily match any interior design context.

✓ **BRUSHED STEEL**

A very bright finish. Exclusive, precious and perfect combined with metallic or solid colour, to give a strong emotional impact

✓ **COOL GLASS**

4-mm thick clear glass, natural bevel, toughened, high-gloss, screen-printed, high-sheen etching frosted-finish side.

✓ **ENVIRONMENT, FIRST OF ALL**

FG SERIES uses R600a, a natural refrigerant gas with GWP (Global Warming Potential –the potential contribution to the greenhouse effect) more than 430 times lower than those normally used to make refrigerators for the HO.RE.CA. industry.

✓ **TOTAL PRECISE CONTROL**

FG16i model is equipped with a mechanical thermostat and a 9 lt transparent graduated milk tank.

365 PicoCooler

365 PicoCooler

- **A fresh take on traditional coolers and vending machines**

✓ Expand Your Location Reach

Profitably serve smaller locations that demand diverse products. With PicoCooler, you can provide a low-cost, high-security solution filled with delicious products to serve any-sized location.

✓ Easy Checkout

Depending on location need, PicoCooler can be locked or unlocked. If locked, customers simply provide payment, select a product, scan, and walk away! Delicious products have never been more accessible.

✓ Excellent Service

Differentiate your business by providing a high-tech, attractive checkout solution. Successfully pitch new accounts or add PicoCooler to existing accounts to maximize location revenues.

Variety of Payment Options

Provide your customers quick access and payment ease by having them use a variety of payment options: credit/debit/market card, NFC or via their 365Pay App.

Refreshing Snacks

Consumers enjoy a wide variety of fresh, cold food and beverage options that make it conveniently healthy and always available on-the-go.

Commercials & Promotions

Once items are selected customers simply scan the items and easily select checkout on the interactive PicoCooler touchscreen.

Secured Cooler

PicoCooler only opens when your customer presents payment. Once unlocked, it’s easy to grab a product, scan, and go!

Stockwell 2.0

Stockwell 2.0

- **Smart Store Technology that Improves Your Business**

✓ Capture New Accounts

Stockwell provides product diversity and high-security in an attractive package. Appeal to untapped locations and grow your business.

✓ Boost Sales

Expand your service footprint. Pitch Stockwell to existing accounts to boost overall sales and improve your customer experience.

✓ Differentiate Your Business

Stand out from the crowd. Get started with Stockwell smart stores to offer the next step in unattended retail technology.

A.I. Product Recognition

Make checkout easy. Computer vision, smart planograms, and product recognition sensors eliminate the need for product scanning. Stockwell knows what products are selected and charges your customers accordingly.

Dual-Climate Zones

Stock in-demand, high-margin items. Stockwell features both ambient and refrigerated sections, which enables you to stock everything from sandwiches and salads to chips and everyday essentials.

Attractive Design

Create a premium unattended experience. Stockwell's attractive design helps you service new, profitable locations like luxury apartment complexes, airports, hotels, hospitals, and other untapped accounts.

Multiple Payment Options

Boost your customer satisfaction. With just walk away technology, you can provide your locations with easy checkout and increased convenience. Capture new accounts and improve your relationship with current customers.

LightSpeed Warehouse Solutions

LightSpeed Warehouse Solutions

• Run a Streamlined Warehouse

- ✓ Create easy prekitting workflows for better efficiency.
- ✓ Reduce mispicks through visual, easy-to-follow cues.
- ✓ Increase warehouse pick speed for all products.
- ✓ Enjoy rapid implementation and on-site training.
- ✓ Run alongside all major VMS and micro market systems.

Xpress

Reduce warehouse labors costs for as little as $25 a day. For smaller warehouse operations, trust the Xpress mobile warehouse solution to boost labor efficiency, reduce overtime, and cut down on mispicks. Xpress utilizes a tablet mounted on any mobile cart or pallet jack to help your warehouse personnel pick with confidence.

FastTrack V.2

Run a better warehouse through a robust pick-to-light system.

Ideal for operators with 8+ routes, this pick-to-light order fulfillment system enables larger businesses to reduce warehouse needs, redeploy personnel, and combat labor shortages.

LightSpeed Level

Boost warehouse efficiency through powerful software. Level helps you consolidate information from around your warehouse to truly understand and optimize your warehouse inventory and purchasing needs. One of the absolute best warehouse management systems available today.
